

EZT-570 Touchscreen Controller

User Convenience & Flexibility

- Controller may be configured in 11 languages (additional available) - one setting updates icons, menus and help screen.
- Fully configurable alarm settings.
- Selectable power failure/recovery options.
- Full system security allows up to 30 different users with four different levels of security.
- Audit trail files track changes in settings by each user.
- Import/export configuration settings to other controllers saving time. (personalized to your use)
- Configure maintenance/service alerts. (optional)
- Adapt-a-tune technology provides excellent control stability.

Graphing Technology

- Real-time trend display graph with adjustable time and min/max values.
- Up to four configurable trend graphs with left & right axis (additional available).
- Graph historical data files.
- Zoom in/out graphs.

Enhanced Communications & Control Options

- Digital input option provides 8 inputs that can be configured for various control functions including starting, stopping and pausing a profile. "Wait for" function allows the user to pause a profile during a particular step of the profile until a specific digital input is turned on or off.
- Digital output "customer event" feature provides 15 programmable outputs. Each output can be configured to perform other operations including alarm or profile status indicators for more control over your testing.
- Optional refrigeration monitor package displays and data logs temperatures and refrigeration system compressor suction/discharge pressures.
- Condensation control option helps prevent condensation from collecting on the part by automatically managing the air dewpoint.
- Bar code option allows user to scan barcode to start profile and to add notes to current data file when datalogging.

Configurable alarm settings
customizable for your specific tests
